Subject: FW: MON Petition for Reconsideration
Attachments: Petition for Reconsideration: EPA-HQ-OAR-2018-0746; Administrative Petition for Reconsideration of the National Emission Standards for Hazardous Air Pollutants: Miscellaneous Organic Chemical Manufacturing (MON) Residual Risk and Technology Review, Final Rule, published at 85 Federal Register 49084 (August

Hi Brenda,

FYI: There are now two petitions for reconsideration for the MON (see attached) – one from TCEQ and one from Huntsman – both claiming that the TCEQ value is more scientifically accurate than the IRIS value and arguing that this warrants re-opening the rule.

Please let me know if there's anything you need from me. I shared these with Mike and will discuss with him this morning.

Thanks,
Tegan
